Funds allocated for Reservoir Development Schemes in Madhya Pradesh, Maharashtra and Chhattisgarh

†3393. SHRI RK. MAHESHWARI : Will the Minister of WATER RESOURCES be pleased to state :

(a) the details of the Reservoir Development Schemes being implemented in the country including Madhya Pradesh, Maharashtra and Chhattisgarh at present;

(b) the funds allocated to the States by Government, World Bank and other International Financial Organisations for the said schemes during the last three years; and

(c) the achievements made in this regard so far?

THE MINISTER OF STATE IN THE MINISTRY OF WATER RESOURCES (SHRIMATIBIJOYA CHAKRAVARTY): (a) At the beginning of Tenth Five Year Plan there were 490 number major, medium and extension, renovation and modernization (ERM) irrigation projects in the country including the States of Madhya Pradesh, Maharashtra and Chhattisgarh. The state-wise details of these projects are given in Statement-I *(See* below).

(b) Irrigation being a state subject, the responsibility of planning, investigation, funding along with priority, execution, operation and maintenance of irrigation projects primarily rests with the concerned State Governments themselves. The Plan funds allocated to the States are not tied to any Sector or Project of development. It depends on the concerned State to allocate funds to various activities of development as per its own priorities. The Central Government is providing Central Loan Assistance (CLA) under Accelerated Irrigation Benefits Programme (AIBP) for such major and medium on-going projects, which have been given investment clearance by the Planning Commission and are in an advanced stage of completion and also for minor surface irrigation projects of Special Category States. The State-wise details of CLA under Accelerated Irrigation benefits Programme (AIBP) provided during the last three years are given in Statement-ll *(See* below) The State-wise details of external aid assistance provided during last three years for the irrigation projects is given in Statement-Ill (See below).

(c) The ultimate irrigation potential of 490 major, medium and ERM irrigation projects is 22.525 Million hectare (M.ha), out of which 9.052 M.ha (anticipated) has been created upto the end of IX Plan, which is about 40.19% achievement in terms of potential creation.
